WELCOME MESSAGE

On behalf of the organizing committee, it gives us immense pleasure to invite you to participate in the 11th MSO ASM which will be held on a virtual platform for the first time from 25-28th March 2021.

In the height of the covid-19 pandemic, we sincerely hope this virtual meeting will enable continuous medical education and continuous professional development of the local ophthalmologists & trainees to update their knowledge and exchange expertise from the safety and comfort of their homes.

The theme chosen for this year is *Uveitis Made Easy* which will focus on a practical case-based approach to problem solving and management of uveitis. We have a line-up of internationally renowned uveitis experts from UK, Singapore and Australia who will be sharing their knowledge and expertise in the field. Our very own local experts will also walk us through a variety of topics and case-sharing from the local scenario.

On another note, this virtual meeting will enable our trainees to showcase their work through e-posters and free paper presentations during the pre-meeting sessions. The highlight of the pre-meeting sessions would be the Malaysian Young Ophthalmologists Debate during which eloquent young members of our fraternity will be unravelling their ideas and pertinent points pertaining to

some interesting current notions in the field of Ophthalmology. We hope this event would be both enjoyable and informative.

We cordially invite fellow colleagues to participate in this virtual ASM which we hope will serve as an excellent platform for knowledge-sharing and networking in spite of all the trials and tribulations we are all facing due to the covid-19 pandemic.

Thank you and we look forward to welcoming you at the MSO -ASM 2021.

Yours sincerely,

Dr Shelina Oli Mohamed
Chairman

Dr Sudhashini Chandrasekaran
Vice Chairman
