2ND

EYE CONFERENCE 2025

CATARACT & REFRACTIVE SURGERY:
SHARPENING OUR VISION FOR THE FUTURE

DAY 2: LENS REFRACTIVE SURGERY & PRACTICE BUILDING

**BREAKFAST TALK BY TRANSMEDIC - Heidelberg Anterior
Launch: Transforming Anterior Segment Diagnostics****SESSION 8: TORIC IOL - GETTING ASTIGMATISM RIGHT**

- SIA: Getting it right
- Toric IOL calculator in 2025
- Post-op astigmatism surprises
- Rotated toric IOL: How and when to fix

SESSION 9: PRESBYOPIA-SURGICAL STRATEGIES

- Monovision: Mastering the basics
- When is multifocal the better choice?
- Presbyopia-correcting IOL technology in 2025 - How do I assess them?
- Basics in starting Presbyopia IOL surgeries
- Managing dissatisfaction with multifocal IOLs

SESSION 10: PRESBYOPIA-CORRECTING IOL OPTIONS

- Enhanced monofocal vs EDOF
- Presbyopia-correcting IOLs in post-refractive eyes
- Understanding Defocus Curve
- Choosing near vision correction
- Evaluating new PCIOR technology

**LUNCH TALK BY JOHNSON & JOHNSON -Introduction to Elita
SILK and unlock Pure Vision Quality with PureSee™ IOL
EDOF****SESSION 11: COMPLEX CASES & REAL-WORLD OUTCOMES
(forum)**

- IOL power surprises: Prevention and rescue
- IOL exchange techniques: When and how
- Multifocal IOL in irregular corneas?
- Cases that changed my practice - a roundtable

**SESSION 12: OTHERS ASPECTS OF REFRACTIVE PRACTICE
(forum)**

- Preparing to offer refractive surgery
- Staff training and team development
- Medico-legal risks in refractive surgery
- Equipment essential
- Becoming a safe refractive surgeon

**SESSION 13: INTERACTIVE EXPERT PANEL - LASER & LENS
(forum)**

- Dealing with decentered premium IOL
- Borderline topography cases
- SMILE enhancement protocol
- LASIK flap complication

EYE CONFERENCE 2025

CATARACT & REFRACTIVE SURGERY: SHARPENING OUR VISION FOR THE FUTURE

DAY 1: BIOMETRY & LASER REFRACTIVE SURGERY

SESSION 1: INTERMEDIATE NOBC LATEST ADVANCEMENTS IN BIOMETRY

- Ocular Biometry Landscape in 2025
- Enhancing skills in reading A-scan
- Enhancing skills in reading Optical Biometry
- Inter-device variability and how to handle it clinically

SESSION 2: INTERMEDIATE NOBC LATEST IOL FORMULAS

- Understanding the Barret suite: Universal II, TK, and Toric
- Using AI to enhance IOL formula and treatment plan
- Biometry in keratoconus: Which formula wins?
- Formula for post-refractive eyes
- How do I use the online Calculator in 2025

BREAKFAST TALK BY SANTEN - Duressa®: Unified Approach to Ocular Infection and Inflammation

SESSION 3: INTERMEDIATE NOBC IOL TECHNOLOGY

- All do you need to know about aberration and IOL
- Hydrophobic VS Hydrophilic - Does it matter?
- Plate haptic, C-loop and Square Edge: Does it matter?
- Understanding refractive, diffractive and segmented IOL technology
- Wavefront and Spiral IOL technology

SESSION 4: PERSONALIZATION IN IOL SELECTION

- Post-op results: Do you know what to look for?
- Top 5 patient factors influencing IOL choice
- When NOT to implant a premium IOL
- Step by step in personalizing IOL selection

LUNCH TALK BY ZEISS - From SMILE to Presbyond: ZEISS Solutions for the Full Vision Correction Journey

SESSION 5: STARTING SMART IN LASER REFRACTIVE

- Essential pre-op test before LVC
- Treating ocular surface disease before LVC
- When to avoid LVC: Red flags in screening
- LASIK, PRK, and SMILE: What beginners should know
- What to avoid in recruiting LVC patients

SESSION 6: ALL ABOUT PHAKIC IOL

- Phakic IOL 101: What, When, and Why?
- Step-by-step: Starting a Phakic IOL service
- Patient selection: Who is not a good candidate
- Highlight in preoperative workup for Phakic IOL

SESSION 7: BASIC PROCEDURES IN LASER VISION CORRECTION

- Understand laser ablation pattern in LVC
- Step-by-step in performing PRK
- Step-by-step in performing LASIK
- Step-by-step in performing SMILE
- Presbyopic correction with LVC: Is it viable?
