

Asia-Pacific Vitreo-retina Society Congress (APVRS) 2017

8th - 10th December 2017
Kuala Lumpur Convention Centre, Malaysia
<http://2017.apvrs.org>

Myopia is a huge problem in the Asia Pacific region and most of the ocular complications occur in the vitreoretinal area. This symposium will summarise the latest evidence in myopia prevention strategies, medical management of myopic choroidal neovascularization, and, surgical management of myopic macula hole. It is an essential symposium for all ophthalmologists.
